BLAISE KOLODYCHUK PRESENTS:

THE NANDI BEAR TENANTS

Veltrax the amazing Wolvcha from the planet Wolvcha has just helped rescue Klor, and amazing single celled creature from a vicious robot bent on destruction. As a celebration they are having dinner in a restaurant located on Earth's moon!

Eating is always fun. I'm glad we could get my ship back in working order using that evil robot's parts.

ZENO

It is indeed a lucky coincidence.

So where are you from anyway? I can probably take you back to your planet after dinner if you would like.

You are truly an amazing person. I can't believe that we happened to meet at exactly the most important time. Unfortunately my home world has been destroyed, those robot creatures have killed every single member of my entire species.

That's horrible.. I'm so sorry. Does that mean there will be more of those creatures coming for you eventually?

I'm pretty sure that was the last one... There were only five of them to start with, and during my planet's annihilation the first three were destroyed.

And I destroyed one. What happened to the last robot?

Once when they were chasing me one of them was sucked in to a black hole.

I see. So you have no home?

Not really. But I can find somewhere.

Come with me back to Earth. We can find a place where you belong down there.

I might as well. I got nothing to lose!

Back on Forclune's space cruiser...

What is she doing?

I am going in to a trance. I will be hypnotizing you, putting you in a protective psychic bubble and Dorriss will be transporting you to Earth's moon.

Me? Why me? Why don't you get one of your superhero friends to do something like that?

Because you are from the cat planet, like me. When I hypnotize you we will connect our minds and triangulate to find King Fluffy... also from the cat planet.

Isn't Dorriss from the cat planet?

I'm a cat from Earth, I was just born looking ridiculously awesome.

I see.

Okay, it's time Oliver...

ZAP.

Meanwhile on the moon, a spaced out hypnotized Oliver appears in a bubble...

It freaks me out when she does stuff like this.

Everything freaks you out.

Nothing freaks me out! And neither does Pattee going in a trance!

You just said it freaks you out.

Shut up Stensor. You're a loser.

No problem. Do you wanna get a pizza after we find the king?

Pizza? You haven't spoken to me in 5 months and you wanna buy me pizza?

I was busy, with the whole giant isopod thing. You know that.

Maybe Indian food.

I have made contact! Fluffy is on an uninhabited planet near Ursa Minor. I am telepathically feeding the coordinates in to the navigation computer.

Shouldn't we bring Oliver back on board?

Okay, but we need to go fast!

F24

The Moon of Clamt, Ursa Minor. The only thing on this deserted moon seems to be an old crashed spaceship...

F24

Now who could that be? No one even knows I am here!

KNOCK! KNOCK! KNOCK!

Hello!

Fluffy! My old friend! We have gone through a lot of trouble to find you! What in the world are you doing here?

Well Pattee, it's a long story.

Would you folks like to come in? I could mix you up something to drink. I have Tang.

I would love some! It's what astronauts drink you know.

Yes I do know. Actually if it hadn't been for this Earth spaceship that fell through time, and was stocked full of rations... well, I probably would have had a hard time surviving.

But why are you here at all?

Well the whole thing is a bit embarrassing, I take it you know that the Fluffy on the Cat Planet is a robot, right?

Yes.. At least he was before we put an end to his evil ways.

Oh thank goodness. Anyway, I built the robot myself.

But why?

Well, as Pattee could probably tell you, I have never been all that comfortable being a big celebrity, and that's kind of what happens when you become King. So I created a perfect robot to deal with public appearances. It worked great and acted just like me.

Well at some point he stopped acting like you and started wanting to destroy planets.

Yes... Well the villainous Rabbit-X found out, kidnapped me, stole the controls to the robot and left me stranded on this moon where no one would ever find me again. Until now.. Thanks for that by the way.

Rabbit-X! That makes total sense.

Why is it you always know everything about everything?

I read a lot. Anyway, Rabbit-X is a super criminal who recently escaped from the maximum security prison on Mars.

I guess that would explain why he hates Mars.. but why would he also want to destroy the Cat Planet?

I don't know. The one thing I do know is that Rabbit-X has been hiding out somewhere on Earth.

Then that is our next stop... after we bring you back to your kingdom of course.

No thank you. I have grown to love the solitude of this forgotten moon. If you could just set up a transporter here so I could have fresh supplies delivered.

Nothing could be simpler. Using my psychic powers to scan this space craft, I have discovered that it possesses unlimited power, transport facilities, food replicators and all the comforts of home.

Sure, but the thing is dead, broken down.. Do you think I haven't been trying to repair this ship since it crashed here through that time portal? And I'm pretty good at electronics if I say so myself.

The problems lie deep within the labyrinth of wires in the walls of this craft. But by using my third eye and the telekinetic powers I possess, I will easily be able to patch things up. Annnnnd... done.

The ship flickers to life.

Pattee, not only are you the most beautiful cat I have ever known, you are also the most remarkable. First order of business is to send a message back to the cat planet and name Cheemo as my successor.

On the hunt for the dangerous
